Customer Reviews

My introduction to Robert McCloskey came in his classic "Make Way for Ducklings." My two-year-old son was captivated by the illustrations and story and it became a regular request on his nightly bedtime reading list. He liked it so much, I hopped on and bought every book McCloskey had ever written or illustrated. Seriously. Although the recommended age range for this book is 4-8, when the big box of new books arrived, "Burt Dow" immediately caught my son's attention. He simply couldn't resist the colorful illustrations of Burt Dow and his boat, the "Tidely Idely." The first time we read it, certain pages scared him a little ("Turn the page, Daddy!") but when he realizes Burt would be okay, he couldn't stop asking questions about the story. Now three-and-a-half, he still requests "Burt Dow, Deep Water Man" every week or two. It's his favorite book and he quotes it often and even finishes many of my sentences when I read it to him. I couldn't give this book a higher recommendation. If your child is between two and eight and you are interested in other McCloskey books, consider "Blueberries for Sal," "Lentil," "One Morning in Maine," and of course, "Make Way for Ducklings." If your children are a little older, say four to eight (maybe a little older) they'll

appreciate "Homer Price" and "Centerburg Tales." They might also like "Time of Wonder," a very nice piece of writing and illustration you'll enjoy whether you are a kid or just a kid at heart.

I loved this book as a child and my kids loved it too. An excellent book! Bright happy pages and a very funny plot.

Wow. Loved this book. My son won't let me put it down. I think that this book will remain a favorite for some time.

Super fast shipping, item as described!

Got this to read to my toddlers. Great illustrations. Fun story. A bit long, but not too long. It doesn't catch their interest quite as much as some other sillier books though.

Could not find this in local bookstore. Love the library binding, should last a lifetime. Took extra time to deliver, must have been backordered. Worth the wait

I used to read this book to my son while he waited at the pediatricians. He loved it and every time he went to the doctor I had to read this wonderful book. In addition Make Way For Ducklings by the same author was my very first book when I was a baby born in Boston in 1942. So now, I have passed on the family legacy to my precious grandson.
